

*Bushra 2012*

Bushra

The trendiest destination during Ramadan, Bushido once again transforms into Bushra this Holy Month. Following last year's success which saw the launch of Bushra, meaning "good news" in Arabic, this year's Ramadan will once again transform Bushido's opulent Japanese-pagoda into a modern Arabic experience! In true Bushido style, there will be a few innovative surprises to behold. Amongst the surprises, Bushra will deliver a visual spectacle, utilising the latest technology of 3D video mapping.

3D mapping is a magical technology using projections to create dynamic interactive displays which bring surfaces to life thus creating brilliant visuals. Furthermore for Bushra, a special guest Arabic chef consultant has been appointed. Noor Murad, a contemporary Bahraini chef, graduated from the prestigious Culinary Institute of America in New York and has since founded the cooking school and restaurant-consultancy "Chop That" in Bahrain.

Her culinary expertise will surely deliver an unforgettable experience this Ramadan. Head to Bushido which will be converted into a modern Arabic tent! Traditional music will mix with modern beats and oriental paintings will grace the walls. A mix of traditional Arabic and International food including live cooking stations and a la carte option will be on offer. Delicious food such as Threed, Hareesa, Qatayef, Saj, Shawarma, hot
