

Bushido Brings New Foodie Fun

Bushido is cooking up a storm with their new menu. As well as having a selection of tasty new dishes, they're also putting diners in the hot seat and allowing them to cook their own food at the table. The Ishiyaki and Amiyaki dishes allow you to choose between cooking meats, fish, and veg on hot charcoals as well as volcanic hot-stone, giving an incredibly tasty result as well as being a really social dining experience (the desserts are pretty yummy too!).

GO: The new menu will be served from the October 13 at Bushido. Call 1763 6363.
